

A close-up photograph of a portable projection unit. The device has a white plastic body with a blue rubberized grip around the edges. A circular lens in the center is glowing with a bright, multi-colored light. To the right, a black circuit board is visible, populated with several integrated circuits. A black power cable is plugged into the side of the device. The background is a plain, light-colored surface.

# SENse Micro-Wellbeing Suite

ULTRA PORTABLE INTERACTIVE  
PROJECTION UNIT

# Features

- The smallest in the SENse range and also the most budget friendly option
- The SENSE Micro comes with the Wellbeing Suite for Dementia care, Care homes or older users
- Mobile Trolley with braked castors
- Lightweight - easy to transport and move from room to room
- Projection size (dependant on installation height)  
Approx. 1.2m W x 0.9m H
- Dimensions of the unit – 23cm x 15 cm x 12cm
- Optional Battery
- Instant Activity Wizard
- Speakers

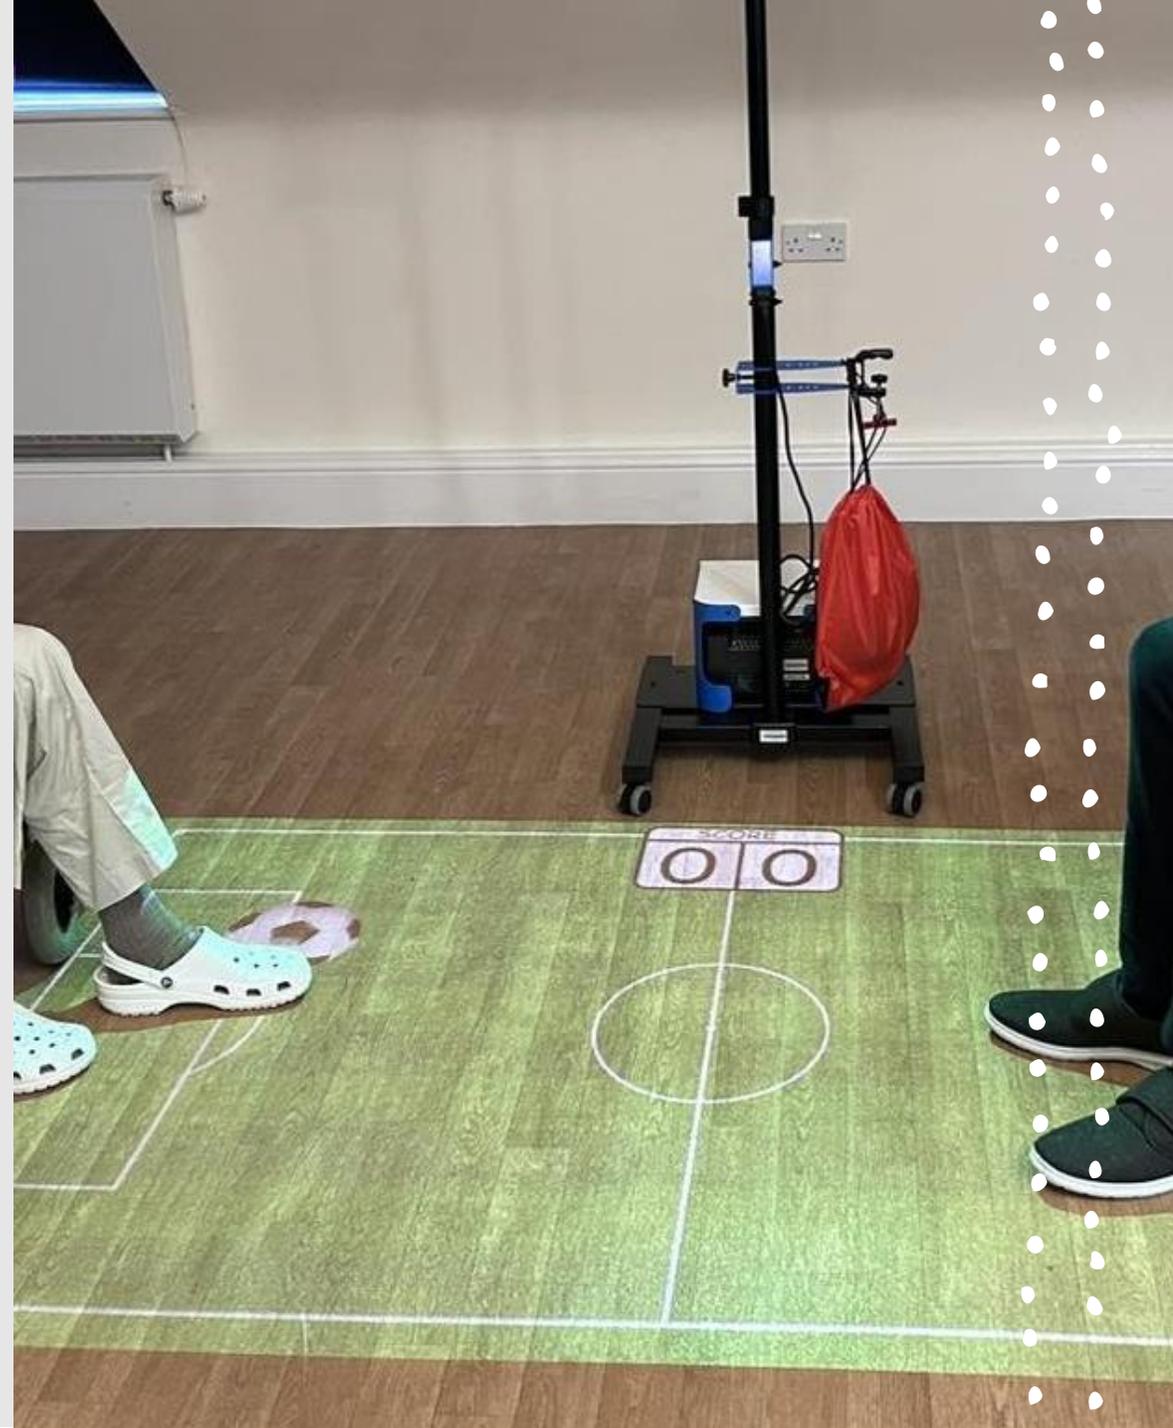

# The Trolley

- The SENSE Micro is a mobile interactive projection unit, capable of interactive floor, table, bed or wheelchair tray surfaces
- An easy to assemble trolley allows you to position the SENSE Micro at the ideal height for a variety of surfaces
- Resize function in the Software allows you to shrink the image down for smaller individual surfaces such as wheelchair trays
- The projector can rotate when installed onto the trolley for non interactive wall or ceiling projection
- Project relaxing content onto the ceiling for those lying in bed

# Optional Battery

- Add the optional Battery Pack for a completely mobile projection unit
- No trailing wires
- No having to find a spare plug socket
- Continue with the fun from room to room
- Reduce downtime as there is no need to power down the unit every time you move the projector from room to room
- Approx. five hours run time from a one hour charge
- You can even use the machine while its charging

# Activity Wizard

Utilize the “Instant Activity Wizard” to craft personalised activities by incorporating a variety of your own images, enriching their overall experience.

Simple and easy way to personalise activities

- Create a folder on a USB memory stick and name the folder for each resident
- Gather a set of personal or favourite images for each resident, making sure they are relevant for the activity you want to create
- Insert the USB stick into the SENse Micro machine
- The Software will assemble a range of activities using your images, resulting in a genuinely personalised experience.

# Benefits

**Cognitive Stimulation-** Unlock cognitive potential with the vast range of activities crafted to stimulate cognitive abilities, from memory games and puzzles to problem solving challenges and brain teasers. Engaging minds and maintaining mental agility, these activities foster memory retention, attention span and critical thinking skills

**Social Interaction** - Promoting social interaction is a vital element of the Wellbeing Suite. Engage residents in group participation, sharing enjoyment and building connections. With collaborative games and storytelling sessions to group image painting activities, the Suite nurtures a sense of belonging, friendship and social cohesion.

# Benefits

**Emotional Well being-** Prioritizing emotional wellbeing, the Wellbeing Suite offers activities to promote relaxation, stress reduction and emotional stability. Engage in guided breathing exercises, calming sensory experiences, expressive art therapies, and virtual nature journeys, providing moments of tranquillity and emotional respite for residents

**Intergenerational-** Fostering intergenerational connections. The Wellbeing Suite bridges generational gaps and unites all ages. Engage in shared experiences, learning from one another and cultivate unity and understanding across generations

# Benefits

**Creativity and Self Expression-** Unleashing creativity and self expression; A core aspect of the Wellbeing Suite. Engage in art activities, music exploration and interactive storytelling. Encouraging residents to tap into their artistic potential and imagination. These creative outlets foster a sense of accomplishment, boost self esteem and nurture personal growth

**Multi Sensory Engagement-** Elevating engagement with multi sensory experiences, the Wellbeing Suite utilizes visual elements, soothing sounds, tactile sensations and aromatherapy integration to create a rich and immersive environment. This multi sensory approach amplifies the experience and leaves a profound impact
