adapt[®] 500

The adapt 500 has a synchronous mechanism, allowing individual control of the seat tilt angle and the backrest angle. There are two sizes of seat and backrest (interchangeable). Standard features are an inflatable lumbar support, seat depth adjustment and memory foam seat pad.

innovative seating

fabric options

Ergochair can source a highly versatile range of fabric and colour options to suit your specific working environment.

because people are not made to standard specifications...

adapt510
