Smart Lifter LP

**Autochair's Smart Lifter LP is a 4-Way XL Boot Hoist providing the greatest possible lifting capacity for the biggest mobility devices.**

### Load and Stow larger devices up to 200kg

The Autochair 4-Way XL Boot Hoist is the most powerful hoist on the market, capable of lifting some of the heaviest scooters and powerchairs up to 200kg.

This robust hoist is best suited for larger vehicles and features 4-way up/down/in/out operation, relieving you from all the effort of lifting and loading your device.

All Smart Lifter Boot Hoists now feature a new control box and handset with soft touch illuminated buttons, soft start motors, and overcurrent protection making it more comfortable to hold, safer to operate, and easier to use.

Autochair is a leading manufacturer of vehicle adaptations for over 40 years.

- New electronics with soft start motors for smooth operation
- New easy-grip handset with soft touch illuminated buttons
- Multiple versions available to suit your vehicle and the weight of your mobility device
- Can lift your scooter or wheelchair into the car in less than 60 seconds
- At only 11kg, the hoist arm is easily removable when not in use to create more boot space
- Suitable for over 350 vehicles

## LOADING & STOWAGE

---

Make easy work of loading and unloading a wheelchair, mobility scooter or powerchair into your vehicle with our loading and stowage systems. All at the touch of a button. Whether you require car hoists or wheelchair roof boxes, we have got you covered.

## DRIVING AIDS

---

Regain and retain your independence with our colossal range of driving adaptations tailored to you and your vehicle, including mechanical hand controls, electronic accelerators, left foot pedals, pedal guards, remote control devices, steering aids, and much more.

## EASY VEHICLE ACCESS

---

Get in and out of your vehicle safely and easily with our specialised range of accessibility adaptations for drivers and passengers with reduced mobility. We can aid your transfer from a wheelchair, scooter, powerchair or even from standing, with swivel seats, transfer plates, and person hoists.
