**80kg 2-Way Fixed**  
Next Generation Smart Lifter LM

**Autochair's Next Generation Smart Lifter LM will vertically lift your scooter, wheelchair, or powerchair so you can easily load it into the boot of your car.**

**Ideal for smaller cars with devices up to 80kg**

The 2-way Boot Hoist is the most compact of the range, ideal for lifting lighter mobility scooters and wheelchairs & powerchairs.

Featuring 2-way up/down operation, this hoist alleviates the effort required to lift and load a mobility device into the car.

The Next Generation LM has seen mechanical improvements to increase the overall durability and longevity. It also features a new control box and handset with soft touch illuminated buttons, soft start motors, and overcurrent protection making it more comfortable to hold, safer to operate, and easier to use.

Autochair is a leading manufacturer of vehicle adaptations for over 40 years.

- Next Generation design for increased quality, reliability, and efficiency
- New electronics with soft start motor for smooth operation
- New easy-grip handset with soft touch illuminated buttons
- Can lift your scooter or wheelchair into the car in less than 60 seconds
- At only 8kg, the hoist arm is easily removable when not in use to create more boot space
- Suitable for over 400 vehicles

## LOADING & STOWAGE

---

Make easy work of loading and unloading a wheelchair, mobility scooter or powerchair into your vehicle with our loading and stowage systems. All at the touch of a button. Whether you require car hoists or wheelchair roof boxes, we have got you covered.

## DRIVING AIDS

---

Regain and retain your independence with our colossal range of driving adaptations tailored to you and your vehicle, including mechanical hand controls, electronic accelerators, left foot pedals, pedal guards, remote control devices, steering aids, and much more.

## EASY VEHICLE ACCESS

---

Get in and out of your vehicle safely and easily with our specialised range of accessibility adaptations for drivers and passengers with reduced mobility. We can aid your transfer from a wheelchair, scooter, powerchair or even from standing, with swivel seats, transfer plates, and person hoists.
