Ambre 6100 Powered
Wheelchair

DESCRIPTION

The Ambre 6100 is a powered wheelchair for indoor use. It is built to give the user maximum freedom of movement at home, at work or at school.

The wheelchair will enable you to move around easily in confined spaces as the chassis is only 57cm wide. The electric height adjustment has an impressive 28cm range and will lift 75cm off the floor enabling the user to reach heights normally out of a seated person's range.

The mid-wheel drive enables the Ambre 6100 to turn on its own axis and the individual wheel suspension allows it to climb obstacles up to 4cm.

SPECIFICATIONS

TECHNICAL DATA		STANDARD MEASUREMENTS
