### **Filling**

The Bubble-Lusion requires 5L of water (de-ionised water is recommended) The fill hole is located on the top right hand side of the unit. Fill the panel with water using either the pump provided or a suitable container. Fill the panel up to the fill line and add 10ml of the BCB Treatment supplied.

### **Draining**

Locate the power socket next to the fill hole located on top of the panel, connect the pump and drain out the water into a bucket or container.

### **Maintenance**

We recommend changing the water in the Bubble-Lusion every four weeks and when refilling using 10ml of BCB Treatment. Simply wipe down the exterior of the panel with a soft, damp cloth. You can also use standard household cleaning products for routine cleaning

### **Warranty**

The Bubble-Lusion comes with a one year warranty as standard

### Modes

The Bubble-Lusion panel comes with 4 in built buttons for interaction

#### **White Button**

A spectrum of multi colours cascades and transitions throughout the bubbles, creating a mesmerising visual experience

#### **Red Button**

A red glow creates a warm and inviting ambiance, as the bubbles gently rise and float elegantly captivating the red hue

#### **Green Button**

A lush and refreshing green illuminates the bubbles casting a tranquil and serene ambiance, creating a calming and natural presence

#### **Blue Button**

A soft and soothing blue glow, creating a tranquil and calming background for the bubble cascade

### Optional Control (If applicable)

#### **Cube**

The Bubble-Lusion can be controlled by the throw of the soft padded cube, depending on the colour the cube lands on, the Bubble-Lusion will transform into a solid panel of that particular colour. If the cube lands on the multi-coloured side, the Bubble-Lusion will change into a vibrant, multi-coloured bubble panel, displaying a dazzling array of hues. This interactive feature adds an element of fun and spontaneity to the Bubble-Lusion, allowing users to customize the panel's appearance with a simple throw of the cube

### Optional Control (If applicable)

#### **Button Controller**

The Bubble-Lusion can be easily controlled by pressing the large coloured buttons. Depending on the colour pressed, the Bubble-Lusion will transform into a solid panel of that specific colour. Additionally, if the hand button is pressed, the Bubble-Lusion switches to a mesmerizing multi-coloured visualisation, providing a stunning backdrop for the cascading bubbles. This intuitive control system offers users a simple yet captivating way to customize the Bubble-Lusion's appearance and enhance their visual experience.
