adapt[®] 600

The adapt 600 has an asynchronous semi-knee tilt mechanism, allowing individual control of the seat tilt angle and the backrest angle. There are three sizes of seat and backrest (interchangeable). Standard features are an inflatable lumbar support, seat depth adjustment and memory foam seat pad.

adapt610

seat:
width: 480mm
depth: 440 - 500mm
back:
width: 460mm
height: 400 - 450mm

adapt620

seat:
width: 480mm
depth: 440 - 500mm
back:
width: 460mm
height: 450 - 500mm

fabric options

Ergochair can source a highly versatile range of fabric and colour options to suit your specific working environment.

because people are not made to standard specifications...
