

# Seat Runner Mounted Pedal Transfer

## Universal Quick Release Left Foot Accelerator

**Brig-Ayd's Seat Runner Mounted Pedal Transfer allows the driver to operate the accelerator with their left foot, while the right is protected by a pedal guard.**

### Transfers the throttle to a new left foot accelerator pedal

Designed for drivers unable to operate the accelerator with their right foot, an additional pedal is fitted to the left of the brake enabling you to control the vehicle's throttle with your left foot.

This universal quick release left foot accelerator also provides a pedal guard to prevent accidental operation of the original accelerator. This can be quickly detached to return control to the original pedal. This makes it ideal for shared vehicles.

Over the last 45 years, Brig-Ayd Controls have developed an innovative catalogue of driving solutions that can be tailored to your unique requirements.

- Original accelerator protected by pedal guard
- Retains the use of the right pedal for right-foot drivers
- Quickly Release the Pedal Guard to access original accelerator
- Seat runner mounting system doesn't permanently modify your vehicle

BRIG-AYD CONTROLS

## LOADING & STOWAGE

---

Make easy work of loading and unloading a wheelchair, mobility scooter or powerchair into your vehicle with our loading and stowage systems. All at the touch of a button. Whether you require car hoists or wheelchair roof boxes, we have got you covered.

## DRIVING AIDS

---

Regain and retain your independence with our colossal range of driving adaptations tailored to you and your vehicle, including mechanical hand controls, electronic accelerators, left foot pedals, pedal guards, remote control devices, steering aids, and much more.

## EASY VEHICLE ACCESS

---

Get in and out of your vehicle safely and easily with our specialised range of accessibility adaptations for drivers and passengers with reduced mobility. We can aid your transfer from a wheelchair, scooter, powerchair or even from standing, with swivel seats, transfer plates, and person hoists.
