

Mobile hand washing unit

HG230 The Hygienius

Helping to combat cross contamination infection.
The automatic sensor starts a ten second flow of hot water when hands are placed within range.

Suitable for medical and healthcare settings as well as food preparation situations

The Hygienius can be plugged in to any convenient 13 amp socket

 Order online at tealwash.com

The Hygienius is entirely self contained and needs no mains water service or drainage connections.

The Hygienius can be plugged in wherever a handwash is needed

Feature of the Hygienius:-

- Hands free operation under warm running water.
- The water always at the optimum temperature of 38° - 40°C.
- Highly portable - the Hygienius can be plugged in to any convenient 13 amp socket, enabling it to be sited exactly at the point of need.
- The automatic sensor starts a ten second flow of hot water when hands are placed within range.
- Nothing to reset or adjust.
- The unit comes complete with an easy to use TEALtainer water container which ensures that fresh and waste water are kept separate and hygienically contained. When the fresh water is used up, the waste bag will be full.
- Simple daily hygiene routine.
- Up to 50 ten second hot washes per filling of the water container which holds 9 litres of fresh water.
